Japan Innovation Center was established in January 2019 by New Frontier Capital Management (Hong Kong). Japan Innovation Center has partnered with universities worldwide and other organizations that promote innovation by connecting startups, companies, and VC funds in various regions to build a global innovation ecosystem.

We are pleased to host this forum with the aim of further deepening our relationships with you and our partners and creating a global network of collaboration. For corporate partners, we wish you to connect to the leading-edge innovation initiatives within the academia and government sectors. For university and institutional partners, we wish you to connect to the latest investment and business of innovation.
